Midnight Releasing

Midnight Releasing is the newest label addition to Brain Damage Films, one of the largest and most respected Independent horror film distributors in the world since it was established in 2001. Brain Damage Films has a loyal fan base from all around the world who know and appreciate the best in scares, gore and ultimate horror. We like to call them: Gorehounds.

**...and there are more Studios,
Networks and titles to come!**

Manufactured on-demand, this DVD, Blu-ray & CD collection of feature films, music, reality programming and classic television series is sure to boost sales for multi-channel merchants seeking new content for their collecting customers.

About DVD/Blu-Ray & CD Media On Demand

Manufacturing-on-demand:

The Allied Vaughn Collection is made exclusively on-demand, sometimes referred to as “burn-on-demand” using the same manufacturing processes already proven successful with the Warner Archive Collection, the Columbia Classics Collection, History Channel Collection, and many others. Products are “retail packaged” with full color case wraps and disc graphics, housed in an industry standard retail case, and CSS copy protected using studio approved technology. CD’s are packaged in an industry standard “jewel” case with full color inserts and disc graphics.

Manufacturing-on-demand provides web, catalog and other merchants with a host of advantages:

- **We make on-demand at the time of your order.** So, we’re never in a stock-out position on the any of these MOD titles. You can market these titles with the confidence your orders are always immediately fillable.
- **No minimum order quantities.** You can take orders as you sell them, or keep modest inventories if you like. No more valuable capital sitting on your shelf collecting dust.
- **You incur expense only after you’ve made the sale** – a CFO’s cash flow dream.
- **Generate more revenue with minimal risk or investment.** Zero inventory means you can add this title for just the modest cost of adding a sku to your website or catalog.
- **On-Demand titles command higher price points.** When you don’t have excess inventory flooding the market, and you’ve got hard-to-find content consumers have been waiting for, you get to sell it at premium prices. Most MOD titles go for more than \$20 per title.

And more...

Manufacturing-On-Demand is the industry's "game changer" for physical media and is the fastest growing segment within all of video content marketing. Faster than BluRay, and faster than downloads. And, the segment is highly profitable (could be why content owners and marketers are adding titles to on-demand at an ever increasing pace).

Have your own content? Let Allied Vaughn convert your library to on demand too, and enjoy the same benefits of zero inventory manufacturing you will experience with these collections of titles!
