SYNOPSIS

Based on an astonishing true story, *Lords of Chaos* recounts the exploits of the Norwegian black metal movement's most notorious band: Mayhem. Its founder, Øystein Aarseth, better known as Euronymous, was one of the originators of the annihilating metal guitar sound that burst onto the scene in the early '90s. After the gruesome suicide of vocalist Per Yngve Ohlin, who performed under the pseudonym "Dead," Euronymous used the opportunity to inject a mix of satanism, havoc, and murder into the music to sell more records. Bassist Varg Vikernes began to take Euronymous's headline-grabbing talk too seriously and went on a spree of church burnings, forming a deadly rivalry between the two bandmates that culminated in an infamous and bloody end.

THEATRICAL RELEASE

The film is currently set for a February 15th release, which will kick off with special talent-led Q&A screenings in both NY and LA targeted to influencers and members of the heavy metal and genre film communities before expanding nationwide throughout late February. Having had its World Premiere at the 2018 Sundance Film Festival, Lord of Chaos had a late summer/early autumn run of major festivals around the world including Film Society of Lincoln Centre, Fantasia, FantasticFest, Sitges and BFI London with more selective international festival runs in the coming weeks

MARKETING

Director Jonas Åkerlund is a Grammy Award-winning music video director, having worked with powerhouses of all genres, from Paul McCartney to Metallica to Beyonce. In addition to our own paid media campaign, we have key marketing relationships supporting the release: Alamo is supporting nationwide in their theatres and Vice has developed their first ever cross-platform marketing strategy to support an original feature. By offering collections of unique merch, special performances from popular metal bands, and more events to pique word-of-mouth interest, we will go beyond the endemic metal community to rally the broader genre and arthouse communities around the release.

The film is already generating buzz in both mainstream and niche publications. Lords of Chaos was recently featured as the cover story of the Autumn 2018 issue of DAZED magazine, and has also already received coverage from Rolling Stone, COLLIDER, AV Club, Revolver, EW, and more. Additionally it has been included in numerous best-of-festival lists, such as V Magazine's Three Five Must-See Flicks from Sundance, Vanity Fair's Picks of the 2018 London Film Festival, Dread Central's Top 10 Horror Movies From Fantastic Fest, Flicks' The Freakiest, Goriest Films of Fantastic Fest 2018, /Film's The Best Movies of Fantastic Fest 2018, LA Weekly's Best of Beyond Fest, and more.

01/29/2019 889845942887 The Human Element

2019 During his four-decade career as a photographer and explorer, James Balog has focused his lens on the complex relationship between humans and nature. Human activity has now surpassed all other forces shaping our world. Balogs work has challenged us to contemplate our place in, and responsibility to, the natural world. Balog investigates how altering the elements is in turn affecting everyday Americans right now. The Human Element features subjects who are often overlooked victims of climate change. Balog visits Tangier Island, a fishing community facing the imminent reality of sea level rise threatening their future. We meet Yadira Sanchez and her three children in Denver, Colorado, all of whom suffer from asthma, and attend a special school for children struggling with air. Balog embeds with a Cal Fire strike team on the frontlines of the most expensive wildfire in California history. And he ventures deep into Kentucky coal country, meeting unemployed miners finding hope from a new source. Balog argues that humans are part of the whole system of nature and not apart from it. Knowing this, he finds great hope that the fifth element, the human element, can bring the whole system back into balance. James Balog
